

## DEPARTMENT OF ELECTRICAL ENGINEERING

### Best Projects

Sr. No.	Project Title	Academic Year	Type of Project	Guide Name
1	The smart Energy Meter with prepaid	2023-24	Energy Based	Prof.Korake D. M.
2	Smart control of headlight beam of EV by using IR sensor &PV cell	2023-24	Product Based	Prof.Khandekar N. V.
3	Smart hand-gloves using Arduino	2023-24	Application Based	Prof.Godase A. N.
4	IoT soldier health monitoring and tracking system with panic alarm.	2023-24	Application Based	Prof.Vyavhare P. B.
5	Automatic Transfer Switch Control Panel	2023-24	Research Based	Prof.God S. P.
6	Automatic power factor improvisation by using arduino for 1HP electric Motor	2022-23	Research Based	Dr. R M. Patil
7	Wireless electric vehicle charging station	2022-23	Research Based	Prof.More V. P.
8	Automatic coil winding machine	2022-23	Application Based	Prof. K. P. Jadhav
