

Department of Computer Science and Engineering

On September 21, 2018, ACSES (Association of Computer Science and Engineering Students) held a workshop on Operating System Installation as well as a handy workshop on Introduction to Computer System for the new comers in CSE Department i.e. specially for Second Year and Direct second year students for approximately two and half hours starting at 3:30 pm upto 6:00 pm at CSE Department, SKNSCOE seminar hall.

The main focus behind it was to introduce them to those things which can be useful and beneficial for day to day work. It include Operating System installation of Windows 7 and Ubuntu 15.4 Operating System. The workshop was beneficial to department students and thereby for college too.

The second workshop was all about Introduction to computer System. Now a day's students need to know practically how computer system works. They get to know and observe hardware parts and components and functionality of system. As an association of CSE department, for ACSES, it was mere responsibility to let more and more students get benefitted and get a ken of these recent technologies to be firmer in tomorrow's competing world.

The workshop was started in presence of respected Mr. Namdev Sawant (Head of Department, CSE, SKNSCOE) and Mr. Virendrakumar Dhotre (Chairman, ACSES). The OS Installation workshop was taken by Mr. Tandale Shubham, while the second workshop taken by Mr. Saurabh Shinde. Mr. Nilesh Lengare and Mr. Rohit Misal and Miss. Deshmukh worked for both workshops in administrative works.
