Guest Lecture on topic “ Aspect of concrete mix design in highway construction.”

As the Infrastructure construction is growing rapidly and construction of Highways is also increasing, hence to make our students aware about advances in Quality Control in Highway construction, we at Department of Civil Engineering & Civil Engineering Students Association(CESA) had organized a Guest lecture of Mr. Akshay Sarade, who is alumni of batch 2017-18 and currently working as Quality Control Engineer at G. R. Infraprojects Pvt. Ltd. (WAMA Project division, Sangola).

The session was started with introduction and felicitation of guest Mr. Akshay Sarade by

Hon.HOD Dr. C. P. Pise Sir in presence of Prof. S. V. Upp (CESA Faculty Advisor), and Prof. Y.P. Pawar & Prof. G. D. Lakade. In his session Mr. Akshay Sarade shared his views and demonstrated the Calculation's to be done for Mix Design of Concrete as per Revised Provisions of various IS Codes in MS Excel, with some his practical experiences. The students were very excited and happy after this session. He also appreciated the organizing committee for their keen involvement in such a most excellent program. He also emphasized on benefits of students participation in such events.

The session was concluded with vote of thanks by Prof. G. D. Lakade. All the arrangement was done by CESA office bearers with full enthusiasm, with the help of Teaching and Non-teaching faculty members.

No. of Students attended = 90
Objectives

To Understand Aspect Of Concrete Mix Design In Highway Construction.

Outcomes

Students get demonstrated the calculation to be done for mix design of concrete as per mix design of concrete as per provision of various IS Codes.

Mr. Akshay Sarade Delivering Lecture

“Thousands have lived without love, not one without water.”

A Guest lecture on Departmental Responsibilities and Nature of work in Water Resources Department.

As a part of exposure of our students to Government organization working environment, we at Department of Civil Engineering & Civil Engineering Students Association (CESA) had organized a Guest lecture of Mr. Pritam Chorade, who is alumni of batch 2016-17 and currently working as Junior Engineer at Water Resources Department, Minor irrigation Sub Division No. I, Pandharpur.

The session was started with introduction and felicitation of guest Mr. Pritam Chorade by Hon. HOD Dr. C. P. Pise Sir in presence of Prof. S. V. Uppin (CESA Faculty Advisor), and Prof. C. M. Deshmukh

& Prof. G. D. h. In his session Mr. Pritam Chorade shared his experience of Preparation for MPSC Exams and then he demonstrated the organization structure of Water Resources Department. In his session he further explained the work responsibilities of each member in his organization, also he emphasized on one modern project undertaken by Govt. Of Maharashtra i.e. Pipe Distribution Network (PDN) in which engineers may have wide scope in future.

He also appreciated the organizing committee for their keen involvement in such a most excellent program. He also emphasized on benefits of students participation in

such events. The session was concluded with vote of thanks by Prof.G.D.Lakade.

All the arrangement was done by CESA office bearers with full enthusiasm, with the help of Teaching and Non-teaching faculty members. No. of Students attended = 92

Objectives

To understand the departmental responsibilities & nature of work in water resource department.
